The bath people

DISCOVER SERENITY

SERENITY® HYDROTHERAPY COLLECTION

AQUATICBATH.COM

FIND SERENITY IN A WORLD OF HYDROTHERAPY PRODUCTS.

Form. Function. Experience.

Immerse yourself in Serenity® and you'll find countless ways to create a bath that's as individual as you are.

Style

From simple elegance to striking sophistication, Serenity offers styles and shapes to suit a variety of design tastes. 50 models include timeless designs and of-the-moment show-stoppers, including lustrous acrylic and hand-crafted copper models.

Installation

Freestanding pedestal or slipper tubs in glossy acrylic or hammered copper make beautiful centerpieces for any bathroom. Drop-in models allow you to customize your tub surround to flow seamlessly with your room's décor. Undermount tubs all but disappear under the deck surface, for the sleekest of applications.

Hydrotherapy

SOAKER

The deepest of bathing wells and ergonomic features for an indulgent soak.

HOTSOAK™

Gentle and quiet, this circulation system keeps your bath as hot as you like, for as long as you like.

DRIFTBATH™

A quiet current and uninterrupted warmth make for a relaxing oasis.

AIR BATH

Thousands of bubbles dance and pop around you for an effervescent full-body massage.

TAKE COMFORT IN DESIGN THAT INSPIRES. AND ENDURES.

They're beautiful and sophisticated, yet completely soothing. They're also enduring. Inspiring in every possible way, products from the Serenity collection are a choice you can feel good about.

Bathtubs built for lasting enjoyment

The luxury of Serenity products extends into the waters of craftsmanship. Thick, cast-acrylic construction with fiberglass reinforcement gives you the assurance your product will stand up to the rigors of shipping, installation and usage over time. Hand-hammered copper tubs also offer exceptional durability. On all models, every curved edge and water line is perfectly clean, so you can enjoy many years of tranquility and beauty.

Thoughtful details everywhere you look

Look closely, and you find Serenity in a variety of fine details:

Extra-deep bathing wells with ergonomic back support make your bathing experience luxuriously comfortable.

Custom-formed bases provide a solid foundation that offers exceptional stability for your peace of mind. The design also reduces noise, protects the hydrotherapy system and makes tubs easy to install.

Electronic, one-touch controls allow you to switch on power and adjust lighting with a simple press of a button.

Expertise that puts you at ease

Aquatic gives you the advantage of responsive customer service and localized technical support. We'll work with you and your designer to ensure we build the right product, in the right configuration, for you to create the bath of your dreams.

IMMERSE YOURSELF IN LUXURIOUS POSSIBILITIES.

For each Serenity bathtub, a refreshing array of hydrotherapy options is available. Whether you find long, hot soaks relaxing, or you prefer the invigoration of bubbles, you'll find a luxuriously calming hydrotherapy system to suit your needs.

Air Bath

Gentle, all-encompassing massage

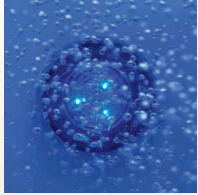

Tiny, effervescent air bubbles circulate around your body, in varying intensities, to make you feel both refreshed and relaxed. It's like a fingertip massage from head to toe. As an added measure of cleanliness, the bathtub's air injectors are automatically purged of water 20 minutes after you've finished your bath.

DriftBath

Soothing, water-only experience

More than 70 water ports converge into a soft current that creates a relaxing blanket effect, without any jet action or vigorous swirl of bubbles. Heat generated by the motor is used to keep water warm, so there's no need for a separate inline heater. As an added benefit, water travels around the motor in a way that dampens operating sounds and vibrations. This keeps the entire bath experience as quiet and peaceful as possible.

Chromatherapy—Special effects you can feel

Adding color to your Serenity bath is an innovative way to customize your spa experience. Depending on your mood, you can create a constant color wash or a flowing color sequence.

HotSoak

Warmth that stays with you

Extended warm-water therapy opens pores, improves circulation and relaxes the body. Constant circulation and an inline heater keep the water at just the right temperature while you linger.

Soaking Tubs

Welcome relief from daily stresses

These bathtubs have no jets or air channels, but they are deeper than traditional tubs and allow you to fully immerse yourself in soothing water.

Looking for a targeted whirlpool massage?
Explore Aquatic's Estate collection.

THERE'S A SERENITY BATHTUB THAT'S PERFECT FOR YOU.

Aquatic offers more designs, colors and customizable options than you'll find anywhere else. Soak up the abundant possibilities, and you're certain to feel inspired.

What makes an Aquatic bath great? It's more of a question of 'who?'

Behind every product is an expert—an engineer, a designer, a machine operator—someone who is passionate about making bathing a comfortable and enjoyable experience for everyone.

So when you choose Aquatic, you're choosing more than a shower, tub or other bath product.

You're choosing people who are the best at their craft. And that means you can relax knowing you're getting the best quality, value and options for your specific project.
